PROFESSIONAL SUMMARY

Dedicated web developer with 4+ years interactive experience and a focus on responsive and adaptive web technologies. Restaurants to car washes, independent contractors to corporations. I have a diverse work experience with a solid foundation in standard-based web programming and an understanding of best web practices.

SKILLS

- HTML 4/5
- CSS 2/3
- jQuery
- JavaScript
- PHP
- Bootstrap Framework
- Responsive Design
- Mobile Development

I adapt quickly to both my environment and the accompanying general work flow.
Have a keen sense for detail.
Self-taught so I understand where and how to search for answers. Though not afraid to ask questions when needed.
Comfortable speaker.
Great at working with a team or even managing projects.

WORK HISTORY

MONDO

Email Developer | 2000 Market Street Suite 1420 Philadelphia, PA 19103 | Feb 2016

- Currently work for a client under Mondo (agency) engaging primarily in analyzing, editing, and reviewing emails and their code for discrepancies and making any adjustments if necessary.
- This included cross-email client compatibility testing, cross-browser testing, and quality assurance using tools such as Litmus and the Adobe Suite.

FREELANCE PROJECTS

Freelance Developer | | March 2015

- Focused on creating, maintaining, updating a number of websites for various small companies/Independent businesses.
- I also utilized this time to enhance my skills with HTML5, CSS3, and the start of Mobile App Development (with jQuery mobile).
- Created online portfolio to display some of my design principles and progress in different technologies.

QVC

*Independent Contractor | 1200 Wilson Drive, West Chester, PA 19380 | **Sept 2014***

- Worked primarily managing the weekly Online Web content for my department Jewelry webpage (using SiteCore.)
- This work included creating and managing assets, routine QA and real-time adjustments for daily specials and sales that needed to be reflected online (usually after the airing of a product on the network.)
- Led meetings for my department and coordinated with fellow team members to create a solid and consistent work flow enabling us to meet our deadlines.

PET 360 INC

*Web Developer | 2260 Butler Pike, Plymouth Meeting, PA 19462 | **Sept 2013***

- Worked on multitudes of marketing emails from the company's primary and secondary businesses ([Pet360](#), [PetFoodDirect](#)).
- This work involved receiving .PSD designs and cutting and coding them into proper cross-compatible emails ready for the client.
- Created new site pages and applications such the "[Chocolate Toxicity Meter](#)." (I was responsible for the html5 and css3 (with some JavaScript/jQuery)).

BROWNSTEIN GROUP

*Independent Contractor | 215 S Broad St, Philadelphia, PA 19107 | **Aug 2012***

- Worked with a team of multiple developers to complete a first iteration SLV (Seasonal Launch Vehicle) for a well-established corporate entity.
- Primarily worked in HTML 4/5, CSS 2/3, JavaScript, jQuery, and minor PHP.

MERAMAK BANKCARD CENTER

*Web Content Producer | 2271 NJ-33 #106, Hamilton Township, NJ 08690 | **Jan 2011***

- Was in charge of all web/print related materials produced by the company including (but not limited to):
 - Marketing materials (both email and paper based)
 - Official company website creation and functionality
 - Official company Facebook business profile
 - Multiple various web based projects for company clients.
- While working for Meramak, most of the interaction that I had was with the multiple managers and owners of the company in regards to the current status of multiple web based projects that went in development. My goal was always to create or expand on methods of increasing the amount of clientele in my department such as the revitalizing of the company website and marketing material as well as bringing the company in a new direction visually from their previous look.

HQ VIDEO SOLUTIONS (form. HQ INTERNET SOLUTIONS)

Web Developer | 2 North Ave W Cranford, New Jersey 07016 | Sept 2010

- My primary responsibility during my time at HQ consisted of converting .PSD file layouts and designs created in-house into complete working web pages and websites; tested, debugged, and published onto the client's dedicated server ready to be seen by the masses.
- Another responsibility that arose was that of applying a backend Content Management System (ModX) to the sites that we created and were to create thereby making the editing of the site easier for the client as well as protecting the identity of the site itself from unwanted changes and alterations.
- Most work consisted of: HTML 4/5, CSS 3/4, PHP, XML, ActionScript, JavaScript, and jQuery.
(<http://www.covecarpet.com/> - Example of my work while at HQ Internet Solutions.)

EDUCATION

HIGH SCHOOL DIPLOMA

Burlington County Institute of Technology | 695 Woodlane Rd, Westampton, NJ 08060 | 2009

This is where the birth of my desire for coding/programming began. I had a computer Science class that became my major.

Here we dabbled in a multitude of programming languages (from C/C++ to PHP to Java) as well as learned core design strategies and the principles behind them. I also was able to create basic-intermediate programs using them.

In fact I created a mini pong game (with "Halo Combat Evolved" themes throughout) using Visual Basic, designed and coded my first "real" website beyond the simple hello world level of simplicity, and helped update the official school website from its 6 years untouched.
